Expenditure calculated for RF Centres includes weighted residential, worker and tourist spend; for RF catchments it includes weighted residential spend only. For all other catchments it includes residential, online and domestic tourist spend (all spend originating from these areas).

The figures are calculated from data from the Living Costs and Family (LCF) survey conducted by the Office for National Statistics. The analyses in this report are carried out by CACI and those who carried out the original collection and analysis of the data bear no responsibility for their further analysis or interpretation. The spend figures are based on current prices for the year stated at the top of the report. The Classification of Individual Consumption by Purpose (COICOP) is published by the UN Statistics Division to provide an international standard for the reporting of expenditure. Totals are controlled to national figures supplied by ONS Consumer Trends.
